Hear from our clients

“ The whole process of the search with WSG’s Employer Engagement Consultant was very well structured. He was not just able to partner us closely, but was also able to take our feedback candidly. The close collaboration eventually led us to find our ideal candidate in a matter of just 3 weeks, an achievement for a senior position! ”

“ During the Career 360 event, we met with a group of talents with extensive work experience and specialised skillsets. Even after the event, the Employer Engagement Consultant continued to engage and support us in our hiring process. We followed up with several meet-ups with WSG’s jobseekers, and eventually hired a couple of them. Today, they are still working with us. ”
